

# Wajid Ali

- Lahore, Punjab, Pakistan | +923443841964 | officewajidali@gmail.com | LinkedIn | Portfolio

## SUMMARY

**Frontend Engineer** with **2.5+ years** of experience architecting scalable, high-performance web applications using **React.js**, **Next.js**, and **TypeScript**. Specialized in **Technical SEO** and **Core Web Vitals** optimization, delivering production-ready solutions that measurably drive user engagement. Proven track record of leading cross-functional teams to transform complex business requirements into reliable, enterprise-grade architectures.

## WORK EXPERIENCE

### Varxus | Frontend Developer

October 2024 – Present | Multan, Pakistan

- Architected scalable Next.js applications improving Core Web Vitals by 40% across enterprise projects
- Led cross-functional teams increasing delivery velocity by 25% through component-driven development practices

### Agile Vectors | Frontend Developer

February 2023 – July 2024 | Islamabad, Pakistan

- Engineered enterprise financial platforms reducing runtime errors by 85% through TypeScript implementation
- Established SEO optimization standards improving organic visibility across client applications

## PROJECTS

### Device Financing System – Financial Platform

- Engineered a financial dashboard processing \$500K+ monthly transactions with automated installment tracking and reporting modules
- Achieved 95+ Lighthouse scores through Next.js SSR optimization and scalable Redux Toolkit state management

### Smart Life – Enterprise IoT Platform

- Architected real-time dashboard for 10,000+ connected devices using React Query for efficient data synchronization
- Reduced API calls by 30% and improved dashboard performance by 40% through Zustand state optimization

### LinkDSM – Enterprise Business Management System

- Developed multi-tenant CRM with granular RBAC permissions streamlining workflows across 5+ business units
- Implemented modular architecture reducing development time by 35% through reusable Shadcn UI components

### Portfolio & Additional Work

- 40+ production projects including e-commerce and corporate platforms
